

Canvas® Integration

Learning Management System Course Evaluation Connector

Class Climate's Canvas integration makes it more convenient for students and instructors to access their course evaluations from their Canvas home page. The integration is available as a Learning Tools Interoperability (LTI) connector.

Together, Class Climate and Canvas work to increase student response rates and to encourage honest feedback.

The **student portal** provides each student with a list of their open online evaluations.

Each survey opens in a new browser window. After students complete a survey, the window displays which evaluations they have completed and which are pending, so they can complete all their evaluations at once.

The **instructor portal** provides a list of each instructor's classes, showing the evaluation response rate and providing access to the most current results report.

Student Portal

The screenshot shows the 'My Survey Dashboard' for 'Sample Course 4'. It lists several surveys with their status and due dates:

- Environmental Design** (91.AD.2534): Closes in 2 Days (08/27/2017 at 05:00:00 pm)
- Design Technology** (96.AG.2734): Closes in 6 Days (08/31/2017 at 05:00:00 pm)
- History and Theory of Architecture** (92.AD.2734): Submitted
- Structure, Materials and Forming Techniques** (94.AD.2636): Data available

A 'Did You Know?' section includes:

- Your survey results are anonymous!
- Only return for a minimal number of students who must respond in order for instructors to receive a summary report. This further protects your anonymity.
- We encourage you to participate and help your university understand instructional effectiveness and plan continuous improvement initiatives.

Instructor Portal

The screenshot shows the 'My Survey Dashboard' for 'Sample Course 4' from an instructor's perspective. It displays response rates and completion status for various surveys:

- Design Technology** (96.AG.2734): Current Response 5 of 40 (13%), Closes in 6 Days (08/31/2017 at 05:00:00 pm)
- Design Projects** (92.AD.2635): Final Response 395 of 478 (83%), View Report
- Introduction to Programming for Architecture and Design** (97.AD.3835): Current Response 82
